

South Florida Legal Providers

The South Florida Legal Providers are private non-profit organizations that work together to address the legal needs of low income individuals. The Providers represent people who have civil legal problems related to housing, education, family, juvenile, employment, immigration, public benefits and other legal areas. The Providers are also concerned about systemic issues that affect the individuals they serve as well as the quality of life in the greater community. All legal services are provided free of charge, except that Catholic Legal Services charges a small fee based on income.
